## PROFESSIONAL SUMMARY

I'm a BTech Computer Science student at LBRCE (2026 pass-out) with a strong interest in software development, machine learning, and deep learning. I've built full-stack web apps using React.js, Node.js, and MongoDB, and I'm now expanding into AI with hands-on projects in Python, ML algorithms, and neural networks. With a good grasp of C, Java, and Python, and an AWS certification, I'm passionate about solving real-world problems through technology. I enjoy working on team-driven projects, constantly learning, and building meaningful solutions that make an impact.
